Prairie Magic[®] Apple

Malus x 'Jefdale'

Prairie Magic® Apple

Malus x 'Jefdale'

The very best fruit we have tasted from a hardy apple! The medium to large-sized fruit matures in mid-September and is crisp and delicious. This variety has fine fruit and good cold hardiness.

Botanical Name:	<i>Malus x 'Prairie Magic'</i>
Family:	<i>Rosaceae</i>
Common Name:	Prairie Magic® Apple
Origin:	A seedling of the cross 'Goodland' x 'Mantet' selected by the late Mr. Wilfred Drysdale of Neepawa, MB. Introduced by Jeffries Nurseries Ltd.
Hardiness:	Zone 3 (Canadian and USDA)
Growth Rate:	A medium growing tree reaching a mature height of 25-30 feet. Also available as a dwarf tree grafted on Ottawa #3 rootstock with a mature height of 12-15 feet.
Description:	Prairie Magic® produces the very best fruit we have tasted from a prairie-hardy apple variety. The medium to large-sized fruit matures in mid-September and is crisp and delicious. Good cold hardiness.
Culture:	Performs best in moderate to full sunshine. It is suited to a wide range of soil types and growing conditions.
Pest and Disease:	Fire blight may be an issue under certain conditions, but can be limited by planting in sod and limiting fertilizer application.
Landscape Value:	N/A
Propagation:	Bud grafting on hardy apple rootstock.
Sales Potential:	Prairie Magic® represents an exciting fruit variety developed for the Canadian prairies. Its fruit quality assures it will be well-regarded by the prairie gardener.
Production:	Propagation by license only. Royalty of \$0.50 per plant, registered with COPF. Available in the United States through Bailey Nurseries Inc. (www.baileynurseries.com).
